Fire Protection Specialist Information:

Name: _____

Firm: _____

Project Address: _____

Fire protection systems review and inspections

In accordance with provisions of the Florida Building Code, Building 2007 and Florida Fire Protection Code 2007 the Authority Having Jurisdiction may require a Fire Protection Specialist to review, inspect and coordinate the commissioning of alternative designed and engineered fire protection systems.

Attachments Required:

1. Proof that the fire protection specialist is qualified with extensive experience in national fire protection codes and fire protection system installations.
2. Qualification statements and/or resumes of fire protection specialist and all duly authorized representatives.
3. Fire protection specialist's scope of work that includes but not limited to submittal of alternate life safety system design in the SFPE *Engineering Guide to Performance-Based Fire Protection* format, fire permit review and coordination, fire system inspection review and coordination, fire protection system commissioning coordination and fire protection plan submittals.

I acknowledge that upon completion of the project and prior to issuance of a certificate of completion, I must file a signed, notarized statement with this enforcement agency that the fire protection systems described in the inspection plan comply with the alternative life safety system design and the permitted documents.

Subject: Certificate of Code Compliance – Fire Protection Systems

Project Name:

Address:

Specialist Name:

To the best of my knowledge and belief, the design, construction and operation of the fire protection systems described in the alternative design plan complies with the permitted documents and the Florida Building Code. Any revision to the system to which building codes apply has been submitted to the City of Boca Raton Building Official and made part of the City of Boca Raton's recorded set of permit documents.
